M.S. DEGREE WITH A *MINOR* IN BUSINESS WORKSHEET

Name: _____ Z#: _____ Advisor: _____

Date of Admission: _____ GPA: _____

A minor in Business is available to students pursuing a non-thesis master's degree who wish to combine technical coursework in engineering or computer science with a sequence of courses designed to provide a broad background in modern business concepts. Thesis students may participate with prior approval of the advisor.

The Business minor is available to students admitted in one of the following master's programs:

- MS with Major in Artificial Intelligence
- MS with Major in Biomedical Engineering
- MS with Major in Computer Engineering
- MS with Major in Computer Science
- MS with Major in Electrical Engineering

Completion of both master's program and the Minor in Business requires a minimum of 36 credits. Students will take: (i) a minimum of 7 courses from the master's program of study consisting of the required core courses and electives, and (ii) 5 Business courses from the Table below.

Business Minor Courses (5 courses)
