This certificate program is open to students with a bachelor’s degree in any academic area, who are not majoring in Artificial Intelligence, and a GPA of at least 3.0. Students must submit official transcripts. Students are expected to be proficient in programming and to have completed a statistics course before pursuing this certificate.

The certificate requires four courses which have not been counted in any other minor or certificate within the College of Engineering and Computer Science. Students must satisfy the prerequisites for each course in the program. The average GPA of all four courses counted in the program must be 3.0 or better.

**Core Course (6 credits)**
