2026 CAMPUS STUDENT HOUSING
BT-640
Florida Atlantic University
Updated 5.10.24

PROJECT DESCRIPTION

The 2026 Campus Student Housing project will provide 670 beds on FAU's Boca Raton Campus. This new residence hall will provide accommodation for non-first year students housed in communities of fifty (50) students per RA (Resident Assistant). Estimated at approximately 203,000 GSF, the project will provide a mix of 3- and 4-bedroom semi suite units, equipped with a kitchenette and with each bedroom designed for single occupancy. The communities are supported by a mix of study space, kitchen facilities, laundry units, and flex space distributed on each level and throughout the building to encourage student gathering. Site configuration needs to address connectivity to the campus core, provide shaded outdoor spaces for gathering and passive recreation.

The university is committed to building facilities that comply with sustainable energy conservation strategies and standards (minimum LEED silver or equivalent). The construction budget (including site development) is approximately \$89.5 million; with a total project cost of \$107.5 million.

SELECTION CRITERIA

Firms will be evaluated in the following areas: Experience and ability, past experience; bonding capacity; record-keeping; administrative ability; critical path scheduling expertise; cost estimating; cost control ability; quality contract capability; qualification of the firm's personnel, staff and consultants and CM pricing, costs and fees (as requested during the interview phase).

Experience and ability scores will be based on the following criteria:

1. Experience in projects of similar size and scope.
2. Experience in working with Universities.
3. Experience in constructing projects on an active/occupied university site.
4. Proven experience in managing project cost from pre-construction services through construction phase.
