

Graduate Student Progress Report - Thesis & Dissertation

All graduate students are expected to meet with their faculty advisor each term to discuss their progress towards degree completion. All thesis/dissertation students are expected to meet with their supervisory committee to present their progress, every semester that they register for thesis/dissertation credits. All members of the supervisory committee are expected to be present at the meeting and provide generous support for student's research efforts. The committee chair must sign the report. Non-thesis/non-dissertation students or students that do not yet have a committee must have their faculty advisor sign this form.

Committee/Faculty Advising Meeting Date:

Student "Z" Number:

Student's Name:

Student's Program:

Student's Anticipated Graduation Semester and Year:

Briefly describe the student's progress made to date on required coursework, research, and/or other program requirements. Highlight the major accomplishments, including research published or in-progress publications.

Please provide any suggestions, comments, and/or concerns about the student's progress. Also, please list items that the student is expected to complete before the next progress meeting and indicate if they are on pace to graduate in the anticipated term.

Total number of credits earned:
