

 FLORIDA ATLANTIC UNIVERSITY	PROGRAM CHANGE REQUEST Graduate Programs	UGPC Approval _____ UFS Approval _____ Banner Posted _____ Catalog _____
	Department Social Work College Design and Social Inquiry	
Program Name Doctor of Social Work	Effective Date (TERM & YEAR) Fall 2018	
<p>Please explain the requested change(s) and offer rationale below or on an attachment</p> <p>The request involves the integration of two capstone courses into one capstone course. In the initial approved curriculum the first capstone course (Advanced Clinical Social Work: Conceptual and Theoretical Reviews) was designed for students to conduct a comprehensive review of the literature, develop a theoretical framework, and formulate research questions. The second capstone (Advanced Clinical Research Proposal) course was designed for students to focus on the methodology and design of their proposed research study. The faculty has opted to integrate these two courses into one (Capstone I) where students present and defend a comprehensive research proposal that includes: (a) a background or introduction with a the problem statement and the purpose statement, (b) research question(s), (c) research hypothesis(es) in null form (if selecting a quantitative design), (d) identification of variables, (e) research design, (f) participants and sampling, (g) setting (if applicable), (h) methods of data collection/ procedures/ instrumentation, (i) data analysis, (j) limitations, ethical considerations, and assumptions. This course will be taught in the first semester of students' 2nd year in the program. The final capstone course (Capstone II) will be taught in the last semester of the 3rd year (last year of the program). In this course, students will write their research paper and defend their work.</p>

Dear Colleagues,

Our faculty members have worked very hard in the last few weeks carefully reviewing the doctoral program curriculum after receiving extensive feedback from the 1st cohort of students. We have opted to make several program changes in addition to the new course proposals that I emailed you this morning.

[L]
[SEP]

Attached to this email you will find an additional course syllabus for the Advanced Clinical Social Work Research Proposal course and a course change form for this proposed course, two program change forms (one for the entire doctoral program describing the proposed changes and the other for the Advanced Clinical Social Work Research Proposal course which is an integration of 2 courses from the original curriculum), and a document with 2 tables summarizing the proposed program changes that I hope would facilitate your review of these materials.

I am aware of that time sensitive nature of my request for your review and comments given that we are all working so hard to catch up after losing time due to Irma. We are hoping to submit all these changes to the October 2nd meeting. I truly appreciate your assistance with this and hope that I will hear from you by Friday morning. I am available to address any questions you may have about our proposed changes. Please do not hesitate to email me or call me.

Hi Naelys-

GRADUATE COLLEGE

Should be fine given the circumstances you have described.

Bob,

Thank you so much for doing this. I know you are away this week. The behavioral stats course we are proposing will be taught only during the summer. Your course does not seem to be offered during summers. Given the strict matriculation and block structure curriculum of our doctoral program, would the course be possible still an overlap? Hoping it is not considering these circumstances.

Best,
Naelys

Dear Naelys,

Sorry for the delay in responding. The Behavioral statistics course would overlap considerably with our introductory graduate statistics course, PSY 6206 Experimental Design 1.

The other course has no obvious conflict with our curriculum.

Cheers,

Bob

Hello Dr. Stackman,

Dr. Luna Called this morning asking if you would approve the attached courses to be taught in the Spring. She said you two had previously discussed this.

Let me know if there is something you want me to submit.

Dear Drs. Longo, Edwards, Peluso , and Stackman:

Please find attached the syllabus and the New Course Proposal Form for two new courses that we plan to teach in the Doctor of Social Work Program. I am requesting that you review and provide comments if you feel as though your department will be affected by these new courses.

Respectfully yours,

Manny J. González
