**COURSE DESCRIPTION:** This course provides a practicum experience for the advanced study of health assessment. It includes supervised experiences of advanced clinical assessment and physical diagnosis.

**COURSE OBJECTIVES:** Upon completion of the course, the student will demonstrate evidence of:

**Becoming competent**

1. Apply foundational knowledge, judgment, skills, and experience from nursing and related disciplines to assess the physical, mental, spiritual, emotional, and cultural well-being of individuals across the lifespan in nursing situations. (Essential I)
2. Utilize selected caring and developmental theories and concepts from biological, behavioral, and nursing sciences to assess the well-being of individuals across the lifespan in nursing situations. (Essential I, VIII)
3. Assess the well-being of individuals utilizing the full range of human senses (sight, hearing, smell, touch) to distinguish abnormal from normal findings in order to develop critical thinking skills and diagnostic reasoning in the formulation of differential diagnoses in nursing situations. (Essential I)
4. Utilize evidence-based clinical prevention guidelines, health promotion interventions, and the principle of genomics in the assessment and planning of patient-centered and culturally responsive care in nursing situations. (Essentials I, VIII)

**Becoming compassionate**

1. Respond to the needs, priorities, and what matters most to individuals during health assessments. (Essential IX)
2. Demonstrate a respectful partnership with others during health assessments. (Essential IX)
3. Select strategies to maximize the comfort, safety, and security of individuals across the lifespan during health assessments. (Essential IX)

**Demonstrating comportment**

1. Exhibit responsible professional behaviors including, but not limited to; dress, attitude, language, and punctuality during health assessments. (Essential IX)
2. Identify effective communication strategies to foster interprofessional partnerships in the health assessment and planning of care. (Essential VII)
3. Discuss the impact of ethical, legal, political, cultural, global, and socioeconomic issues in assessing the health the individuals. (Essential II, VI)

**Becoming confident**

1. Develop and demonstrate self-assurance in performance of assessment skills (Essential IX)

**Attending to conscience**

1. Utilize ethical and moral principles when performing health assessments. (Essential VI)
2. Demonstrate cultural humility and sensitivity to the values of others and self when performing health assessments (Essentials VI VIII)
3. Begin to apply research findings, identify clinical guidelines from national organizations, and apply evidence-based practice in the health assessment of individuals. (Essential IV)

**Affirming commitment**

1. Develop an understanding of the importance of maintaining a scholarly journey of growth in advanced nursing practice utilizing clinical guidelines, databases and informatics to achieve safe and effective health assessment practices. (Essential III, IV, VII).
2. Discuss the role and scope of practice of the advanced practice nurse in providing safe, ethical, efficient, cost effective, quality care. (Essential II, III)

**TEACHING LEARNING STRATEGIES:**

Demonstration videos, nursing situation scenarios, case presentations, audio visual material, simulation exercises, standardized patients, open hours laboratory practice.

**OPEN LAB HOURS:**

There are open lab hours posted in the lab.

**GRADING AND EVALUATION METHODS:**

# 1 – Comprehensive Health History	25 %
# 2 – Documentation of focused SOAP notes	20%
# 3 – Performance Exam	25%
#4 - Physical exam Documentation	25%
#5 – Orientation Quiz	5%

**GRADING SCALE:** The following grading scale has been approved 1-2007. **Students must meet course objectives, course requirements, and achieve a C (73 %) or greater for successful completion of this course, *however*, students must also achieve an average mean minimum score of 80% on all exams or they will receive an “F” in the course. Grades will be not be rounded. A grade of 92.7% is recorded as 92%.**

93-100 = A
90-92 = A-
87-89 = B+
83-86 = B
80-82 = B-
77-79 = C+
73-76 = C
70-72 = C-
67-69 = D+

63-66 = D

60-62 = D-

0-59 = F

Mengel, M & Schwiebert, L.P. (2009) *Family medicine ambulatory care and prevention 5<sup>th</sup> Edition*. New York: McGraw Hill.

**TOPICAL OUTLINE:**

1. Orientation to course, review of syllabus, Comprehensive History, General Survey, Vital Signs, Mental Status
2. Skin, hair, and nails
3. Head, eyes, ears, nose, mouth, throat, Cranial Nerves
4. Thorax & lungs
5. Cardiovascular & Peripheral vascular
6. Cardiovascular continued (murmurs)
7. Abdomen, breast, & axillae
8. Musculoskeletal & Nervous System
9. Male & female genitalia
10. Infant, child, & adolescent
11. Pregnant women and older persons

**COURSE ASSIGNMENTS:**

**Assignment # 1- Comprehensive Health History-25%**

This assignment provides you with the opportunity to do a comprehensive health history on another person. The format for this assignment is discussed and outlined in the first unit. The expectation is that you will type up a formal paper documenting the health history of an adult patient, including all sections of a comprehensive health history. **The rubric is located on your lab Blackboard site.**

<b>Grading criteria:</b>	<b>Chief Complaint</b>	<u>    </u> 2
	<b>History of Present Illness</b>	<u>    </u> 6
	<b>Past Medical History</b>	<u>    </u> 4
	<b>Family History</b>	<u>    </u> 2
	<b>Psychosocial History</b>	<u>    </u> 2
	<b>Complete Review of Systems</b>	<u>    </u> 8
	<b>Format, organization and clarity</b>	<u>    </u> 1
	<b>Total</b>	<u>    </u> 25 Points

**Assignment # 2 Documentation of Two Focused SOAP Notes-20%**

Nursing situations related to the topics discussed in lecture will be assigned in the lab class. Students will have the opportunity to practice application of the assessment process focusing on differential diagnoses related to specific complaints. Students will document the scenarios in the form of a focused SOAP note that will be handed in for a grade. **The rubric is located on your lab Blackboard site.**

**Assignment # 3 Performance Examination-25%**

---

Each student will be required to perform a comprehensive, integrated performance examination of another person. Each student is encouraged to begin integration of the physical examination from the first day of the class.  
*A passing grade of 83 or better must be achieved by each student on this physical examination, in order to pass this course. There are no exceptions to this requirement.* The performance exam criteria and a video is posted online for you. **Students must pass the performance exam. There will be a sign up wiki posted online to schedule your performance exam. You will conduct this exam on a classmate. The rubric is located on your lab Blackboard site.**

**Assignment # 4 Physical Examination Documentation-25%**

---

This assignment gives you the opportunity to document a complete physical examination, assessment and plan (SOAP) performed on another person. The expectation is that this will be a typed document including all of the components and documentation of the complete physical examination. Responses such as “within normal limits (WNL)” or “normal” are **not** acceptable in this paper. This paper should be objective, organized

correctly, clear, and concise. Guidelines for grading of the documentation of a complete history and physical examination are as follows: **The rubric is located on your lab Blackboard site.**

<b>Grading Criteria:</b>	<b>Points</b>
<b>Complete Physical Examination</b>	<u>    10</u>
<b>Assessment, Differential Diagnoses</b>	<u>    5</u>
<b>Plan of Care</b>	<u>    5</u>
<b>Format, organization, clarity, reference</b>	<u>    5</u>
<b>Total</b>	<u>   25</u>

**BIBLIOGRAPHY:** Same as co-requisite didactic course NGR 6200

### **COURSE POLICIES AND GUIDELINES**

**OWL Card** – You will need an OWL card to access the library through EZProxy when you are off campus. If you do not already have one, please take care of this asap.

**Participation:** You are expected to engage in each unit activity. Though this is an online course, it does not mean that you can enter the course once or twice and complete all the requirements. Each unit opens on Sunday and runs for one week. It is expected that each unit's readings and assignments be completed by midnight on Saturday. Any course-related questions may be posted in the Question and Concern Course Menu or sent by email or internal Blackboard messaging.

**Netiquette:** All communication should be appropriate and professional, just as you would expect in a face to face class format.

**Assignments:** All written assignments will be submitted online. Everything must be original work. You may not use work you have submitted in another class. Points will be deducted for late submissions. All written assignments must be written using the APA 6<sup>th</sup> edition guidelines for spacing, margins, fonts, citations, and references.

**Email:** All students are required to have an FAU email address. You will need to check your email at least every other day. All assignments and information, including syllabus and schedule, will be posted on Ecollege.

### **BLACKBOARD:**

This course will be Web assisted via Blackboard. Lecture notes, weekly review questions, internet sites, grades and other items will be posted on the course Blackboard. You must have an FAU E-mail address. From your browser, go to <http://blackboard.fau.edu>. Look for the Login icon on the top right hand of the screen. Click the Login icon. User name and password box will appear. The student user-name is your FAUNet ID. If you do not know your FAUNet ID go to <http://accounts.fau.edu>. Your initial password for Blackboard is your PIN. Pins are by default set to 2-digit month

of birth, 2-digit day of birth, and 2-digit year of birth (MMDDYY). Click onto Student Support then Instructions for New Users. The courses that you are enrolled in will be listed under “My Courses” area. Click on the course title in order to enter the course

**HIPAA:**

The student is responsible to know and follow all HIPAA guidelines both in class, clinical, and outside of these environments. Case review material relating to clinical or practice that is discussed should be devoid of patient identifiers and not discussed outside of the class or clinical setting.

**PLAGARISM:**

Plagiarizing will result in an automatic zero for all assignments, quizzes or exams.

Plagiarism includes definitions in University handbooks and the APA 6<sup>th</sup> edition manual (this includes turning in work that belongs to someone else, working on assignments that are not group work in groups and turning this in as individual work, and turning in the same work/assignment in more than one course.)

**SCHEDULE AND FORMAT CHANGES:**

Faculty reserves the right to make changes in the class schedule or format as deemed necessary to facilitate the learning process.

**EVALUATION OF COURSE AND FACULTY:**

Students will have the opportunity to evaluate the course and the faculty at the end of the course. This provides the faculty with excellent feedback and ideas for future courses! Take advantage of helping future students.

**COLLEGE OF NURSING AND UNIVERSITY POLICIES:**

Policies below may be found in:

- a). The Christine E. Lynn College of Nursing Graduate Handbook located at:  
<http://nursing.fau.edu/index.php?main=3&nav=457>
- b). Florida Atlantic University’s Academic Policies and Regulations  
<http://www.fau.edu/academic/registrar/catalogRevs/academics.php>  
and <http://www.fau.edu/regulations>

**CODE OF ACADEMIC INTEGRITY**

The University policy regarding academic integrity is enforced in this course. Students at Florida Atlantic University are expected to maintain the highest ethical standards. Dishonesty is considered a serious breach of these ethical standards, because it interferes with the University mission to provide a high quality education in which no student enjoys an unfair advantage over any other. Dishonesty is also destructive of the University community, which is grounded in a system of mutual trust and places high value on personal integrity and individual responsibility. Harsh penalties are associated with academic dishonesty. For more information, see:

[http://www.fau.edu/regulations/chapter4/4.001\\_Code\\_of\\_Academic\\_Integrity.pdf](http://www.fau.edu/regulations/chapter4/4.001_Code_of_Academic_Integrity.pdf)

The College of Nursing regards adherence to the Code of Academic Integrity as a professional competency and an expectation of all students. **ANY** act of dishonesty that violates the code of academic integrity and misrepresents your efforts or ability is grounds for immediate failure of the course.

**DISABILITY STATEMENT:**

In compliance with the Americans with Disabilities Act (ADA), students who require special accommodations due to a disability to properly execute coursework must register with the Office for Students with Disabilities (OSD) located in Boca Raton – SU 133 (561-297-3880), in Davie – MOD 1 (954-236-1222), in Jupiter – SR 117 (561-799-8585) or at the Treasure Coast – CO 128 (772-873-3305), and follow all OSD procedures. For more information: <http://www.blackboard.com/Platforms/Learn/Resources/Accessibility/JAWS-Demo.aspx>

Office for Students with Disabilities <http://osd.fau.edu/>

**INCOMPLETE POLICY:**

The Incomplete Grade Policy is enforced. A student who registers for a course but fails to complete the course requirements, without dropping the course, will normally receive a grade of “F” from the course instructor. A student who is passing a course but has not completed all the required work because of exceptional circumstances may, with the approval of the instructor, temporarily receive a grade of “I” (incomplete). This must be changed to a grade other than “I” within a specified time frame, not to exceed one calendar year from the end of the semester during which the course was taken.

**ATTENDANCE POLICY:**

Students are expected to attend all of their scheduled University classes and to satisfy all academic objectives as outlined by the instructor. The effect of absences upon grades is determined by the instructor, and the University reserves the right to deal at any time with individual cases of nonattendance.

Students are responsible for arranging to make up work missed because of legitimate class absence, such as illness, family emergencies, military obligation, court-imposed legal obligations, or participation in University-approved activities. Examples of University approved reasons for absences include participating on an athletic or scholastic team, musical and theatrical performances, and debate activities. It is the student’s responsibility to give the instructor notice prior to any anticipated absence and within a reasonable amount of time after an unanticipated absence, ordinarily by the next scheduled class meeting. Instructors must allow each student who is absent for a University-approved reason the opportunity to make up work missed without any reduction in the student’s final course grade as a direct result of such absence.

**RELIGIOUS ACCOMMODATION**

In accordance with rules of the Florida Board of Education and Florida law, students have the right to reasonable accommodations from the University in order to observe

religious practices and beliefs with regard to admissions, registration, class attendance, and the scheduling of examinations and work assignments. Students who wish to be excused from coursework, class activities, or examinations must notify the instructor in advance of their intention to participate in religious observation and request an excused absence. The instructor will provide a reasonable opportunity to make up such excused absences. Any student who feels aggrieved regarding religious accommodations may present a grievance to the director of Equal Opportunity Programs. Any such grievances will follow Florida Atlantic University's established grievance procedure regarding alleged discrimination.

#### **USE OF STUDENT COURSE MATERIAL**

The Christine E. Lynn College of Nursing may use students' course-related materials for legitimate institutional purposes, such as accreditation, university review process, or state board of nursing review process, etc. In such cases, materials will be used within the college and university.

CHRISTINE E. LYNN COLLEGE OF NURSING

#### **STATEMENT OF PHILOSOPHY**

Nursing is a discipline of knowledge and professional practice grounded in caring. Nursing makes a unique contribution to society by nurturing the wholeness of persons and environment in caring. Caring in nursing is an intentional mutual human process in which the nurse artistically responds with authentic presence to calls from persons to enhance well-being. Nursing occurs in nursing situations: co-created lived experiences in which the caring between nurses and persons enhance well-being. Nursing is both science and art. Nursing science is the evolving body of distinctive nursing knowledge developed through systematic inquiry and research. The art of nursing is the creative use of nursing knowledge in practice. Knowledge development and practice in nursing require the complex integration of multiple patterns of knowing. Nurses collaborate and lead interprofessional research and practice to support the health and well-being of persons inextricably connected within a diverse global society.

Persons as participant in the co-created nursing situation, refers to individual, families or communities. Person is unique and irreducible, dynamically interconnected with others and the environment in caring relationships. The nature of being human is to be caring. Humans choose values that give meaning to living and enhance well-being. Well-being is creating and living the meaning of life. Persons are nurtured in their wholeness and well-being through caring relationships.

Beliefs about learning and environments that foster learning are grounded in our view of person, the nature of nursing and nursing knowledge and the mission of the University. Learning involves the lifelong creation of understanding through the integration of knowledge within a context of value and meaning. A supportive environment for learning is a caring environment. A caring environment is one in which all aspects of the person are respected, nurtured and celebrated. The learning environment supports faculty-student relationships that honor and value the contributions of all and the shared learning and growth.

The above fundamental beliefs concerning Nursing, Person and Learning express our values and guide the actions of Faculty as they pursue the missions of teaching, research/scholarship and service shared by the Christine E. Lynn College of Nursing and Florida Atlantic University.
